Together Information is Toshiba's vision for how people and organisations create, record, share, manage and display ideas and data.

It is based on our belief that the most successful organisations are those that communicate information in the most efficient way.

We make that possible through an integrated portfolio of industry specific solutions, all of which reflect Toshiba's commitment to the future of the planet.

Datasheet

> High-volume A3 multifunctional systems with impressive monochrome document output at a speed of up to 85 pages per minute for demanding printing, copying, scanning and faxing jobs.

> Fully customisable user interface and support of cloud and mobile printing to give you the flexibility you need in today's business world.

> e-BRIDGE Next as the starting point for an efficient communication and a perfect document management.

> All models feature a Dual Scan Document Feeder with a paper capacity of up to 300 sheets as standard for a fast and reliable document processing at a speed of up to 240 ipm.

Toshiba's latest series delivers on our promise of Together Information - our commitment to collaborate with clients to provide tailor-made, effective solutions to meet your print, document management, and content needs, while also helping you to meet your green objectives.

While distributing information, high flexibility is required. Which information should be printed and where should it be saved. The optional e-BRIDGE Plus connectors for OneDrive, Google Drive and Dropbox offer direct access to these cloud services. So documents can be sent directly from the MFP to the service selected or printed on the selected service.

All e-BRIDGE Next models fulfill highest security standards to protect your data from unwanted access. The new e-BRIDGE Next generation offer numerous options for an effective data protection. The Toshiba Secure HDD is standard for all e-BRIDGE Next models and works with a 256-bit AES encryption, guaranteeing your data stays safe.
