TOSHIBA

E-STUDIO409s

Datasheet

- Compact and powerful A4 monochrome multifunctional printer with print, scan, copy, and fax functionality.
- For excellent quality document output and impressive speed of up to 40/44 pages per minute.
- Dual-scan document feeder with a scanning speed of up to 92 images per minute.
- Both models are designed to meet the highest environmental standards and have a low energy consumption, helping to save money and valuable resources.

Powerful all-in-one devices

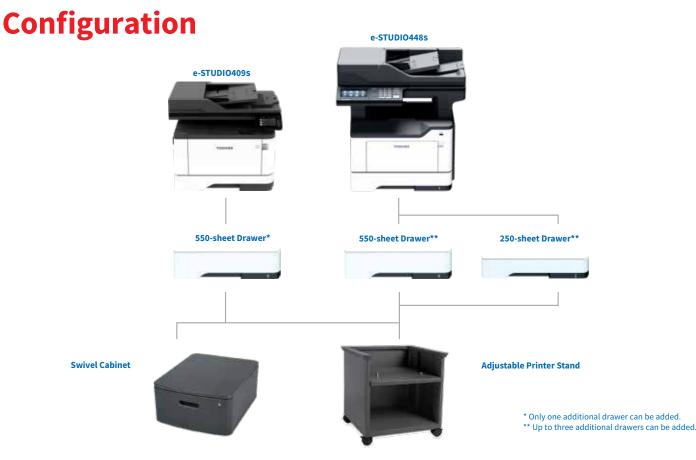

The e-STUDIO409s and e-STUDIO448s are true all-rounders and powerful all-in-one devices which will have the full ability to boost your efficiency. Via the large touch screen you can easily access all functions and apps, which are installed on the systems.

A print speed of up to 40 and 44 pages per minute and a maximum paper capacity of 900 and 2,000 sheets respectively, ensure that the e-STUDIO409s and e-STUDIO448s cover the needs of small- and medium-sized companies and workgroups. For perfect and variable integration into modern office environments, mobile print integrations as well as a USB 2.0 interface for printing and scanning are available.

The e-STUDIO409s/448s are also ideal for digitising documents. With a scanning speed of up to 92 images per minute, even larger volumes can be processed at high speed. The dual-scan document feeder digitises quickly and efficiently, as the documents do not have to be turned over for a double-sided scan. The issue of data protection is of great importance. A wide range of security features and settings are available to protect the systems from unauthorised access. Additional security protocols and individual settings complete the security concept.

To ensure an optimised power consumption and reduce the impact your business has on the environment, the e-STUDIO409s and the e-STUDIO448s offer various print and energy save settings. These will help you save valuable resources and money.
